LT DISTRIBUTION PANEL

KMB LT Distribution Panels are designed to ensure safe, reliable and efficient distribution of electrical power in low tension systems.

KEY FEATURES

- ✓ Robust & Compact Design
- ✓ High Quality Sheet Steel Construction
- ✓ Form 2/3/4 Type Tested Assemblies
- ✓ Safe & Reliable Power Distribution
- ✓ Easy Installation & Maintenance
- ✓ Custom Built as per Client Requirement
- ✓ Complies with IEC / IS Standards

APPLICATIONS

Industries

Commercial Buildings

Infrastructure Projects

Power Plants

Hospitals

Data Centers

STREET LIGHT CONTROL PANEL

KMB Street Light Control Panels are engineered to automate and protect street lighting systems with high efficiency, reliability and safety.

KEY FEATURES

- ✓ Automatic ON/OFF based on Timer / LDR
- ✓ Overload & Short Circuit Protection
- ✓ Manual Override Facility
- ✓ High Quality Components
- ✓ Easy Installation & Maintenance
- ✓ Weatherproof & Durable Enclosure
- ✓ Complies with IS / IEC Standards

APPLICATIONS

Street Lighting

Highway Lighting

Parks & Gardens

Industrial Areas

Residential Areas

FIRE PUMP CONTROL PANEL

KMB Fire Pump Control Panels are designed to ensure reliable operation and protection of fire pumps in emergency situations.

KEY FEATURES

- ✓ Automatic & Manual Operation
- ✓ Overload, Short Circuit & Phase Failure Protection
- ✓ Pressure Switch / Float Switch Integration
- ✓ Indication for Power, Run, Trip & Fault
- ✓ Audible & Visual Alarm
- ✓ High Quality Components
- ✓ Complies with IS / IEC Standards

APPLICATIONS

Fire Pumping Systems

Commercial Buildings

Industrial Facilities

Hospitals

High Rise Buildings

POLICARBONET DISTRIBUTION PANEL

KMB Polycarbonet Distribution Panels are designed to provide safe, reliable and efficient power distribution with high durability and protection.

KEY FEATURES

- ✓ High Impact & Heat Resistant Enclosure
- ✓ UV Stabilized & Weatherproof
- ✓ Electrical Insulation & Corrosion Resistant
- ✓ Compact, Lightweight & Durable Design
- ✓ Safe & Reliable Power Distribution
- ✓ Easy Installation & Maintenance
- ✓ Customized as per Client Requirement
- ✓ Complies with IS / IEC Standards

APPLICATIONS

METER PANEL

KMB Meter Panels are designed to accommodate multiple energy meters safely and efficiently, ensuring accurate monitoring and distribution.

KEY FEATURES

- ✓ Multiple Meter Accommodation
- ✓ Strong & Durable Sheet Steel Enclosure
- ✓ Proper Ventilation & Safety Protection
- ✓ Secure Locking Arrangement
- ✓ Easy Meter Installation & Maintenance
- ✓ Neat & Organized Wiring Layout
- ✓ Customized as per Requirement
- ✓ Complies with IS / IEC Standards

TRANSFORMER KIOSK PANEL

KMB Transformer Kiosk Panels are designed to securely distribute power from transformers to downstream electrical systems with maximum safety and efficiency.

KEY FEATURES

- ✓ Robust & Weatherproof Enclosure
- ✓ High Short Circuit Withstand Capacity
- ✓ Safe & Reliable Power Distribution
- ✓ Proper Ventilation & Heat Dissipation
- ✓ Secure Locking & Access Design
- ✓ Easy Installation & Maintenance
- ✓ Corrosion & Impact Resistant
- ✓ Complies with IS / IEC Standards

VCB 11KV HT PANEL

VCB 11KV HT PANEL

KMB 11KV VCB HT Panel is designed for reliable performance, safety and efficient power distribution. Built with high quality components, it ensures maximum protection and long lasting operation in industrial and commercial applications.

KEY FEATURES

- ✓ Reliable & Safe Operation
- ✓ Vacuum Circuit Breaker (VCB)
- ✓ High Performance & Efficiency
- ✓ Easy Installation & Maintenance
- ✓ Clear Indication & Monitoring
- ✓ Built for Long Service Life

APPLICATIONS

- Industrial Plants
- Commercial Buildings
- Infrastructure Projects
- Power Distribution Systems
- Utilities & Substations

SOLAR AC DB PANEL

Our Solar AC DB Panels are designed for safe and efficient power distribution in solar power systems. Built with high quality components for reliable performance and long service life.

KEY FEATURES

- ✓ Reliable & Safe Operation
- ✓ High Quality Components
- ✓ Efficient Power Distribution
- ✓ Easy Installation & Maintenance
- ✓ Weather Resistant Enclosure
- ✓ Long Service Life

 SAFE & RELIABLE	 HIGH PERFORMANCE	 WEATHER RESISTANT	 EASY MAINTENANCE	 LONG SERVICE LIFE
--	---	---	---	--

HIGH MAST CONTROL PANEL

High Mast Control Panels are engineered for the operation and protection of high mast lighting systems. Designed for durability, safety and easy operation in outdoor environments.

KEY FEATURES

- ✓ Robust & Compact Design
- ✓ High Quality Sheet Steel Construction
- ✓ Form 2/3/4 Type Tested Assemblies
- ✓ Safe & Reliable Operation
- ✓ Easy Installation & Maintenance
- ✓ Complies with IEC / IS Standards

 DURABLE & RUGGED	 SAFE & SECURE	 EASY OPERATION	 EASY INSTALLATION	 RELIABLE PERFORMANCE

PLUG SOCKET

PANEL

KMB Plug Socket Panels provide safe and reliable power distribution through multi socket outlets. Ideal for industrial, commercial and temporary power applications. Built with premium components for durability, safety and efficient performance.

KEY FEATURES

- ✓ Multiple Plug Socket Outlets
- ✓ Safe & Reliable Power Distribution
- ✓ High Quality & Durable Build
- ✓ Easy Installation & Maintenance
- ✓ Overload & Short Circuit Protection
- ✓ Compact & Robust Design

POWER FACTOR PANEL

KMB Power Factor Panels are designed to improve power factor, reduce energy losses and enhance the efficiency of electrical systems.

KEY FEATURES

- ✓ Automatic Power Factor Correction
- ✓ Reduces Reactive Power & Losses
- ✓ Improves System Efficiency
- ✓ Microcontroller Based Controller
- ✓ Step-by-Step Capacitor Switching
- ✓ Overload & Short Circuit Protection
- ✓ Easy Installation & Maintenance
- ✓ Reliable & Long Service Life
